

# QUANTUM BIOLOGY, CONSCIOUSNESS AND

Life is an extraordinary gift. Optimizing life, then, is a game worth playing.

In this workshop you will gain a fundamental understanding that every one of us, and everything around us, is an assembly of fine elementary particles. Subatomic particles follow the rules of quantum mechanics; so who-you-are-biologically arises from who-you-are-quantum-mechanically! That is to say, you are a quantum being! This has profound consequences.

For instance, in classical biology we study structure and function as local phenomena. Quantum physics makes it clear that it is only partially true. Non-local action-at-a-distance may frequently “drive local biology” as in the endocrine system. *In Vivo Quantum Biology* and *Holographic Life* may be far more important than we realized!

Given that such quantum phenomena are counter-intuitive –or even bizarre– analytical reasoning and rational approaches are not sufficient. Integrating them into our lives may require embracing new Practices such as:

1. Romancing our Quantum Self: Can we awaken and let lose more of our hidden glory and majesty?
2. Becoming more Malleable: Through holographic merger, can we align with cosmos that does nearly all the heavy lifting?
3. Being an Observer: Making use of the inseparability of the observer and the observed, can we bask in a created life?

“Remember, it took 13.798 billion years of ‘work’ to arrive here, to conceive such thoughts and articulate such questions! *In vivo quantum biology is a fantastic looking glass of life! Befriending it,*” says Tom Padikal with childlike wonderment in his eyes, “is likely to be one of the most rewarding and transformative episodes in your life!”

## PRESENTATION : QUANTUM BIOLOGY, CONSCIOUSNESS AND LIFE

Studying well-being – and break-downs in well-being – through the eyes of quantum physics gives us valuable insights that can lead to optimization of life, vitality and well-being. Combined with SCQD<sup>®</sup> SCQB<sup>®</sup> and HQB<sup>®</sup> introduced by Dr. Padikal (in the 1990’s and in 2007 respectively) you may be able to demystify your quantum nature!

THOMAS PADIKAL, PH.D.

Medical Physicist, Quantum Biology Practitioner, Center for Vitality, Philadelphia  
Cancer Expert, NCI, National Institutes of Health  
Assistant Professor of Radiology, George Washington University Hospital  
Clinical Associate Professor, Thomas Jefferson University Hospital  
Chairman, Science and Spirituality, Inc., a charitable 501(C)(3) organization  
Author *Championing Your Well-Being*: Available at Amazon, Barnes & Noble and others.

DEMO

NEURO-SCIENCE  
DEMONSTRATION:  
SYNAPTIC POLARISATION  
and SYNAPTIC SWITCHES

QUANTUM BIOLOGY  
DEMONSTRATION:  
SELECTIVE EXCITATION  
and RESONANCE

QUANTUM BIOLOGY  
EXPERIENTIAL DEMO:  
STIMULUS-RESPONSE  
(EXCITATION-RELAXATION)

ELLEN SAYERS  
609-261-0192

*We invite you to join us in this experiential workshop at the Mastery Retreat*

1120 Mount Laurel Road, Hainesport, NJ 08054

Sunday • Oct 15 • 1:00PM – 5:00PM

*Please bring a favorite dish or beverage and share light dinner with us at the end.*

First Time Participants: \$49 • Returning Participants, Additional Family Member or Students with ID: \$29

Have questions? Please call Ellen Sayers at 609-261-0192 or Tina Marie Nawn at 856-906-9048

Invite friends, family, coworkers, neighbors and soulmates

Sponsored by Holographic Life Institute, a 501(C)(3) public charity. Contributions and gifts are tax-deductible

Reserve your seats for the Workshop at: [www.HolographicLife.org](http://www.HolographicLife.org)
